

# **It Ain't Over Ministries Media Production** **Statement**

The objective of the Media Production Arm of It Ain't Over Ministries is to capture, communicate, distribute, and present the Word of God in service of God, the Church Universal, the sick and shut-in, and the community at large.

We use, to the best of our abilities, the technology readily available to spread the Gospel of Jesus Christ in the form of various physical and digital mediums on all available platforms both Religious and Secular.

We strive to enhance the worship experience in a clear, accurate and comprehensible way that is transparent and distraction free to the people in person, online or those who will watch our content at a later time.

We also work to help equip other ministries of like mind and beliefs in the use of these mediums as a worship and outreach tool; partnering with them to reach further than any of us could on our own.

Through these mediums, this Ministry strives to invite people to learn of God's love and become Disciples of His and to develop a more intimate, and powerful walk with Him, and a deeper, more fuller understanding of His Word, The Bible, from a Hebraic contextual perspective and how that applies to us as Gentile Believers today.
